- 4 The definitions for early, intermediate and advanced stage major cancer are found in the policy conditions.
- 5 Income will pay the Premium Waiver Benefit according to your selected option under the Major Cancer Benefit.
  - If the policyholder selected Care 50, upon diagnosis of early or intermediate stage major cancer, Income will waive the premiums up to 60 months or end of policy term, whichever is earlier, and the policyholder will have to pay premiums thereafter. This benefit for early or intermediate stage major cancer can only be claimed once. Income will waive the premiums until the end of policy term upon diagnosis of advanced stage major cancer.
  - If the policyholder selected Care 100, Income will waive the premiums until the end of policy term upon diagnosis of any stage of major cancer.

The premium waiver will start from the policy month immediately after the diagnosis date of the major cancer. The policy will continue to apply for the remaining unclaimed benefits during this premium waiver period even though the policyholder is not paying the premiums. Income will not pay this benefit if the insured suffered symptoms of, had investigations for, or was diagnosed with, any stage of major cancer any time before or within 90 days from the cover start date.
- 6 This plan is not guaranteed acceptance and is subjected to underwriting. Income will not pay any benefits if your claim arises from a material pre-existing condition that was not told to Income. Please refer to the policy conditions for further details.
- 7 If the insured is diagnosed with an early, intermediate or advanced stage major cancer by a specialist during the term of the policy, Income will pay the Major Cancer Benefit according to the selected option. The total payout of this benefit will not exceed 100% of the sum assured. The option must be selected at policy inception and cannot be changed. Income will not pay this benefit if the insured suffered symptoms of, had investigations for, or was diagnosed with, any stage of major cancer any time before or within 90 days from the cover start date.

If the policyholder selected Care 50, any payment made for early or intermediate stage Major Cancer Benefit will reduce any payout for advanced stage by the same amount that Income pays for the early or intermediate stage. The early or intermediate stage Major Cancer Benefit can only be claimed once. This benefit will end when Income makes payment for advanced stage major cancer. The policy will continue to apply even if this benefit ends.

If the policyholder selected Care 100, this benefit will end when Income makes payment for any of the 3 stages of major cancer. The policy will continue even if this benefit ends.
- 8 Income will pay a Monthly Cancer Therapy Benefit as long as the insured is diagnosed with major cancer by a specialist and recommended in writing that the treatment is a necessary medical treatment for cancer according to relevant guidelines from Ministry of Health (MOH) and has started cancer treatment as advised by a specialist. The insured must be diagnosed with terminal cancer by a specialist and a referral for palliative care services made by a specialist is required. Providers listed by SHC, which may be updated from time to time, can be found at [singaporehospice.org.sg/services](#). The benefit will terminate after this benefit is claimed in full. Income will not pay this benefit if the insured suffered symptoms of, had investigations for, or was diagnosed with, any stage of major cancer any time before or within 90 days from the cover start date.

The payout will be reduced by any amounts that are owed to Income. The policy will end when this payment is made.

The payout will be reduced by any amounts that are owed to Income. The policy will end when this payment is made. Please refer to the policy conditions for further details.
- 13 Upon diagnosis with advanced stage major cancer, the insured may choose to take up a new term policy with only death, terminal illness and total and permanent disability (TPD) benefits on the insured own life, without Income having to assess their health. If the insured makes a claim on the new term policy during the 2 years of waiting period, Income will refund 100% of the premiums paid on the term policy issued under this option.
